Announcement of CMMI® Level 3 Certification at ID Wuhan

We are proud to announce that the consolidated subsidiary Information Development Wuhan Co., Ltd. (“ID Wuhan”), which is focused on expanding offshore business in China, received the international certification status of Capability Maturity Model Integration* (CMMI®), Maturity Level 3 on September 14, 2016 regarding its software development process capabilities.

This will increase ID Wuhan’s stature in China and accelerate its participation in China’s vast, rapidly growing market. It will also reinforce collaborative efforts between ID Wuhan and Information Development Co., Ltd. in systems development operations, as both companies strive to provide high-quality services. ID Wuhan will undertake initiatives to continually improve its processes, and is aiming to achieve even higher certification levels.

Certification Details

1. Certified company: INFORMATION DEVELOPMENT Wuhan CO., LTD. (“ID Wuhan”) (Head office: Wuhan City, Hubei Province, China; President: Masaki Funakoshi; 100% equity investment by INFORMATION DEVELOPMENT)
2. Model: CMMI® for Development, Version 1.3
3. Assessment date: September 14, 2016

*Capability Maturity Model Integration (CMMI®) is a guideline developed by the Software Engineering Institute of Carnegie Mellon University in the US to evaluate and improve software development processes. Under CMMI®, the maturity level of an organization’s processes is ranked on a five-level scale. Level 3 means that standard processes have been established throughout an organization, and that that organization can stably secure a certain standard of quality.
